RUSSIA INVADES CHINA

MOST WESTERN CITY IN EASTERN

TURKESTAN OCCUPIED BY
CZAR'S FORCES.

OTHER SECTIONS MENACED

SLAVS THREATEN INVASION OF
NORTH CHINA IF EMPIRE
FAVORS JAPAN.

Paris, Jan. 18.—The Tientsin correspondent of the Paris edition of the New York Herald says that Russia has threatened to invade North China and Chinese Turkestan, if China continues to discriminate against Russian contraband in favor of Japan.

London, Jan. 18.—The Morning Post's Shanghai correspondent says that the Chinese government complains that Russians have occupied Kashgar, the governor of which has appealed to the Chinese foreign board to open negotiations for the withdrawal of the Russians.

Kashgar is the most western city in Eastern Turkestan and has a population of 50,000.

RUSSIA EXPRESSES THANKS.

For Hay's Prompt Action in Calling China's Attention to Charges.

Washington, Jan. 18.—Russia Tuesday through Count Cassini expressed her thanks to the American government for its prompt action in calling to China's attention the charges that her neutrality was being violated. The Russian ambassador received Tuesday a note from Secretary Hay acknowledging the communication of Count Lamsdorff and informing the ambassador that the American government had promptly called China's attention to the charges and expressed the fervent hope that China's neutrality as well as her administrative entity would be faithfully preserved. The secretary further said that the Chinese minister had assured him that his government was equally desirous of remaining strictly neutral and was doing her utmost to prevent violations of her neutrality by either belligerent.

Secretary Hay had another conference with Sir Chentung Liang Cheng, the Chinese minister, Tuesday, the latter calling at the state department soon after Count Cassini's departure. The minister reported that he had received a telegram from his government asking for the charges in detail. Count Cassini said at night that Russia's note to the powers was prompted by the fact that she had absolute proof that Chinese neutrality was being frequently violated and that unless China mended her ways and maintained an attitude of strict neutrality the imperial government would be forced to look first to Russia's interest.

RETURN AS REVOLUTIONISTS.

Officers From Port Arthur Incensed at Russian Government.

London, Jan. 18.—The correspondent at Nagasaki of the Express has had an interesting interview with General Stoessel, in the course of which the general said:

"The capitulation occurring on New Year's day was merely a coincidence. The loss of 203-Meter hill and the subsequent capture of other forts, combined with the deadly marksmanship with the terrible 11-inch shells, the depressing effect of the death of General Kronratenko and the intense suffering of the garrison really fixed the time of the capitulation.

"It is quite true that I dissented from the unanimous opinion of the final council of war. Our repeated requests for aid were never answered. As for parole I distinctly discouraged any concerted action. Every officer decided for himself. Generally commanding officers stuck with their men and chose imprisonment. Most of the naval officers also chose captivity, many probably being influenced by the fear of impending court martials."

The correspondent adds that conversation with other Russian officers reveals great bitterness against and denunciations of Admiral Alexieff for his failure to properly fortify Port Arthur and his "cowardly flight" by the last train from the fortress.

They say the torpedo boat destroyers that escaped before the surrender carried all the regimental and naval colors to Chefoo. The junior officers denounced the incapacity and folly of the government in entering upon the war and declare that all the men who return to Russia from Port Arthur are revolutionists in spirit.

SQUADRON PASSES PERIM.

Russian Vessels Going Toward Jibutli, in the Gulf of Aden.

Perim, Jan. 18.—The Russian squadron passed Perim, Straits of Bab el Mandeb, at 6 o'clock Wednesday morn-

ing going toward Jibutli, in the Gulf of Aden.

This is the division of Vice Admiral Rojestvensky's squadron commanded by Vice Admiral Botrovsky which was last reported passing Suez on Jan. 12.

THE SPOILS OF THE VICTORS.

Four Russian Warships at Port Arthur Can Be Floated.

London, Jan. 18.—The Times correspondent at Port Arthur, detailing the damage to the Russian fleet, says the battleships Perseviet and Poltava can easily be floated, but that the former's superstructure is greatly damaged and that the cruisers Pallada and the armored cruiser Bayan apparently are not seriously damaged and can be refloated. These four vessels, the correspondent says, may be saved after great expense, but the difficulties will be great, as there is no dock in Japan for battleships. The battleships Retvizan and Pobeda seem to be hopelessly damaged. As regards armament, the turret guns were all destroyed before surrender. Some of the guns of the secondary armament are intact, but most of the small guns were removed to the forts.

Three days before the surrender the ships were set on fire with kerosene and mines were exploded alongside. Russians state that the fleet was unfit for service after the engagement of Aug. 10. Coal was abundant, and it was used to protect the decks of the war vessels against howitzer shells. On the capture of Roju hill the ships were sunk by opening sluices.

RUSSIAN PRISONERS OF WAR.

Japan Now Prepared to House Thirty-five Thousand.

Tokio, Jan. 18.—The Japanese government is now prepared to house 35,000 Port Arthur and other Russian prisoners of war; 5,000 at Tangakhaya, 20,000 at Hama Tora, near Osaka, and the remainder scattered in groups of from 350 to 4,000 at different places. Lieutenant Mirsky, a Russian prisoner of war at Matsuyama, will probably be imprisoned for life, owing to his repeated attempts to escape.

SENATOR MITCHELL OF OREGON
MAKES A STATEMENT IN
THE SENATE.

Washington, Jan. 18.—The unusual spectacle of a United States senator explaining on the floor of the senate charges made against himself in a court of law in his own state was witnessed in the senate Tuesday when Mr. Mitchell of Oregon spoke of the indictment recently returned against him by an Oregon grand jury. The senator had not previously appeared in the senate since the indictment was returned and he was received by his fellow senators with many evidences of good will. He was much affected, his emotion at times being such that he read his statement with great difficulty.

Mr. Mitchell detailed the charges against him and said that every one of them insofar as they involved him were absolutely, unqualifiedly and atrociously false, and he indignantly branded each and every one of the authors of the charges as malicious and atrocious liars.

Mr. Heyburn concluded his speech on the statehood bill and Mr. Stone gave notice of a speech Wednesday on his resolution for an investigation of charges of corruption in the campaigns of 1896 and 1904. Among the bills passed were: Transferring the control of forest reserves from the interior department to the agricultural department.

Authorizing the construction of a bridge across the Red river in Marshall county, Minn.

SWAYNE IMPEACHMENT CASE.

Agreement Reached in House to Vote on the Matter.

Washington, Jan. 18.—With an agreement reached to vote on the Swayne impeachment articles Wednesday at 3:30 o'clock business in the house was carried on a high pressure for more than five hours. Mr. Grosvenor furnished the text for a very vigorous speech by Bourke Cockran by the reading of a letter from Judge Pardee of New Orleans declaring that politics was at the bottom of the impeachment proceedings. The fact of a judge transmitting such a letter, Mr. Cockran declared dramatically, was "a monstrous spectacle."

Mr. Grosvenor asserted that there was no ground presented for impeachment in the report of the committee. The other defenders of the Florida judge transmitting such a letter, Mr. Lacey of Iowa, Nevins of Ohio, Moon of Pennsylvania and Crumpacker of Indiana.

Mr. Lamar of Florida closed the debate for the day, reviewing the sentiment of his state and the record of Judge Swayne. He declared there was ample ground for impeachment.

VIEWS OF MR. CANNON

SPEAKER OF THE HOUSE VOICES
HIS SENTIMENTS REGARD-
ING THE TARIFF.

BEFORE REVISION IS MADE

HE SAYS THAT IT WOULD BE BET-
TER TO WAIT FOR AT LEAST
ANOTHER YEAR.

Washington, Jan. 18.—Speaker Cannon was a guest of honor and the principal speaker at the annual banquet of the National Board of Trade Tuesday. The speaker voiced his sentiments regarding the question of tariff legislation, river and harbor improvements and the amendment of the interstate commerce law. He reminded his hearers that this was the short session of congress and that the members were to agree on legislation that would devote approximately \$650,000,000 to the public service. If the throttle were to be opened \$100,000,000 more easily could be appropriated and yet there would be a cry for more.

Regarding the tariff question Mr. Cannon said it was the consensus of opinion that it was better to wait a year before undertaking to revise the revenue laws. "I think," he said, "we have a pretty good revenue law both as regards the customs and the internal revenue, and," he added with a smile, "we need the money."

Will Hesitate to Run the Risk.

"Under existing conditions," the speaker said, "my impression is that the congress of the United States will hesitate to run the risk of halting the business interests of the country. I trust that when adjournment of congress comes the country will get a rest substantially until the first Monday in December."

Regarding the interstate commerce law Mr. Cannon was inclined to think it possible to give the country something in the way of legal machinery that would correct the inequities that now exist. In the remaining days of congress, he added, legislation may be enacted that will tend to correct the present inequities between the distributor and the consumer.

On the subject of rivers and harbors Mr. Cannon said that wise provision would be made by congress for the improvement of our waterways and great inland seas so far as practicable.

Dennison Case Reaches Washington.

Washington, Jan. 18.—The application of Thomas Dennison of Omaha for a writ of error in the extradition proceedings against him was docketed Tuesday in the United States supreme court. The proceedings were instituted at the instance of the authorities of Iowa on a charge of having received stolen goods in that state in 1892.

EXTENSION OF TIME ALLOWED.

Request of Attorneys for Adams in Election Contest Granted.

Denver, Jan. 18.—At a joint session of the two houses of the general assembly Tuesday, to take action on the contest filed by James H. Peabody for the office of governor, the request of the attorneys for Governor Adams for an extension until 2:30 o'clock Saturday afternoon of the time to submit an answer to the charges made in the contest papers was granted by a vote of 61 to 34. By the same vote the legislature decided to proceed at once with the taking of testimony in the contest.

Upon motion of Senator Parks, a committee of five was appointed by Lieutenant Governor McDonald, who presided over the joint session, to draft a set of rules and regulations which shall govern the order of the contest. The committee is composed of three Republicans and two Democrats.

MAY BRING ABOUT CONFERENCE.

German Government Mining Commissioners Try to End Strike.

Essen, Germany, Jan. 18.—The government mining commissioners were in conference for four hours Tuesday with the representatives of the operatives at Dortmund, hearing the miners' complaints. Wednesday they will meet the mine owners' association to hear their side and it is expected that the commissioners will bring about a conference between representatives of the mine owners and the workmen on Thursday. Herr von Velsen, the head of the commission, has instructions from Chancellor von Buelow to do everything to restore peace.

The news from all parts of the mining districts indicates that order has been preserved, only insignificant cases of violence being reported. The strikers now number over 160,000, some estimates approximate 200,000, affecting 203 mines.

TO DISSOLVE PARLIAMENT.

Rumored That British Government Will Take Such Action.

London, Jan. 18.—Coinciding with rumors that the government intends to dissolve parliament early in the coming session comes another report that it is intended to stop further importation of coolies into South Africa. Lord Teynham, presiding at a meeting of a big Rand company Tuesday, publicly announced his fear that such was the case, and the rumor caused depression in Kaffirs in the stock exchange. Lord Teynham said he supposed that if the rumor is so it is in anticipation of a general election, the coolie question having greatly embarrassed the government candidates at recent bye elections.

Woman Burned to Death.

Faribault, Minn., Jan. 18.—Mrs. Kennen was burned to death Tuesday night by the overturning of a kerosene lamp. The lamp had been set near the edge of a table which was covered with a table cloth. Mrs. Kennen, who was reading beside the table, dropped her book. In picking it up she pulled the table cloth and overturned the lamp upon her head.

FOR MRS. ALICE WEBB-DUKE.

Texas Attorney Asks Governor to Get Requisition Papers.

Nacogdoches, Tex., Jan. 18.—District Attorney Imboden said Tuesday night that he asked the governor to secure requisition papers for Mrs. Alice Webb-Duke on the indictment charging her with swindling E. A. Blount by securing from him a loan of \$3,000 based upon false allegations that she and C. F. Taylor had purchased the Redfield tobacco farm from S. F. B. Morse, when in fact both she and Taylor had been legally warned not to set foot on the place. Mr. Imboden also states that Mr. Hobb, who built the houses on Redfield farm, has \$1,500 due him.

MAN WANTED IN MINNEAPOLIS.

Arrested After a Search Lasting Almost Ten Years.

Pittsburg, Jan. 18.—After a search of almost ten years Captain W. P. Walsh of the secret service bureau arrested William H. Souser in this city Tuesday. The prisoner is wanted in Minneapolis, where he was arrested in September, 1895, on a charge of impersonating a United States secret service officer and obtaining credit for jewelry valued at \$102.50 on the strength of his impersonation. He gave bail but forfeited his bond, and since that time Captain Walsh, who arrested him originally, has been on his track.

MAY BRING ABOUT CONFERENCE.

German Government Mining Commissioners Try to End Strike.

Essen, Germany, Jan. 18.—The government mining commissioners were in conference for four hours Tuesday with the representatives of the operatives at Dortmund, hearing the miners' complaints. Wednesday they will meet the mine owners' association to hear their side and it is expected that the commissioners will bring about a conference between representatives of the mine owners and the workmen on Thursday. Herr von Velsen, the head of the commission, has instructions from Chancellor von Buelow to do everything to restore peace.

The news from all parts of the mining districts indicates that order has been preserved, only insignificant cases of violence being reported. The strikers now number over 160,000, some estimates approximate 200,000, affecting 293 mines.

TO DISSOLVE PARLIAMENT.

Rumored That British Government Will Take Such Action.

London, Jan. 18.—Coincident with rumors that the government intends to dissolve parliament early in the coming session comes another report that it is intended to stop further importation of coolies into South Africa. Lord Teynham, presiding at a meeting of a big Rand company Tuesday, publicly announced his fear that such was the case, and the rumor caused depression in Kaffirs in the stock exchange. Lord Teynham said he supposed that if the rumor is so it is in anticipation of a general election, the coolie question having greatly embarrassed the government candidates at recent bye elections.

Woman Burned to Death.

Faribault, Minn., Jan. 18.—Mrs. Kennen was burned to death Tuesday night by the overturning of a kerosene lamp. The lamp had been set near the edge of a table which was covered with a table cloth. Mrs. Kennen, who was reading beside the table, dropped her book. In picking it up she pulled the table cloth and overturned the lamp upon her head.

FOR MRS. ALICE WEBB-DUKE.

Texas Attorney Asks Governor to Get Requisition Papers.

Nacogdoches, Tex., Jan. 18.—District Attorney Imboden said Tuesday night that he asked the governor to secure requisition papers for Mrs. Alice Webb-Duke on the indictment charging her with swindling E. A. Blount by securing from him a loan of \$3,000 based upon false allegations that she and C. F. Taylor had purchased the Redfield tobacco farm from S. F. B. Morse, when in fact both she and Taylor had been legally warned not to set foot on the place. Mr. Imboden also states that Mr. Hobb, who built the houses on Redfield farm, has \$1,500 due him.

MAN WANTED IN MINNEAPOLIS.

Arrested After a Search Lasting Almost Ten Years.

Pittsburg, Jan. 18.—After a search of almost ten years Captain W. P. Walsh of the secret service bureau arrested William H. Souser in this city Tuesday. The prisoner was wanted in Minneapolis, where he was arrested in September, 1895, on a charge of impersonating a United States secret service officer and obtaining credit for jewelry valued at \$102.50 on the strength of his impersonation. He gave bail but forfeited his bond, and since that time Captain Walsh, who arrested him originally, has been on his track.

RUSSIA INVADES CHINA

MOST WESTERN CITY IN EASTERN

TURKESTAN OCCUPIED BY

OTHER SECTIONS MENACED

SLAVS THREATEN INVASION OF

NORTH CHINA IF EMPIRE
FAVORS JAPAN.

Paris, Jan. 18.—The Tientsin correspondent of the Paris edition of the New York Herald says that Russia has threatened to invade North China and Chinese Turkestan, if China continues to discriminate against Russian contraband in favor of Japan.

London, Jan. 18.—The Morning Post's Shanghai correspondent says that the Chinese government complains that Russians have occupied Kashgar, the governor of which has appealed to the Chinese foreign board to open negotiations for the withdrawal of the Russians.

Kashgar is the most western city in Eastern Turkestan and has a population of 50,000.

RUSSIA EXPRESSES THANKS.

For Hay's Prompt Action in Calling China's Attention to Charges.

Washington, Jan. 18.—Russia Tuesday through Count Cassini expressed her thanks to the American government for its prompt action in calling to China's attention the charges that her neutrality was being violated. The Russian ambassador received Tuesday a note from Secretary Hay acknowledging the communication of Count Lamsdorff and informing the ambassador that the American government had promptly called China's attention to the charges and expressed the fervent hope that China's neutrality as well as her administrative entity would be faithfully preserved. The secretary further said that the Chinese minister had assured him that his government was equally desirous of remaining strictly neutral and was doing her utmost to prevent violations of her neutrality by either belligerent.

Secretary Hay had another conference with Sir Chen Tung Liang Cheng, the Chinese minister, Tuesday, the latter calling at the state department. The minister reported that he had received a telegram from his government asking for the charges in detail. Count Cassini said at night that Russia's note to the powers was prompted by the fact that she had absolute proof that Chinese neutrality was being frequently violated and that unless China mended her ways and maintained an attitude of strict neutrality the imperial government would be forced to look first to Russia's interest.

RETURN AS REVOLUTIONISTS.

Officers From Port Arthur Incensed at Russian Government.

London, Jan. 18.—The correspondent at Nagasaki of the Express has had an interesting interview with General Stoessel, in the course of which the general said:

"The capitulation occurring on New Year's day was merely a coincidence. The loss of 203-Meter hill and the subsequent capture of other forts, combined with the deadly marksmanship with the terrible 11-inch shells, the depressing effect of the death of General Krondratenko and the intense suffering of the garrison really fixed the time of the capitulation.

"It is quite true that I dissented from the unanimous opinion of the first council of war. Our repeated requests for aid were never answered. As for parole I distinctly discouraged any concerted action. Every officer decided for himself. Generally commanding officers stuck with their men and chose imprisonment. Most of the naval officers also chose captivity, many probably being influenced by the fear of impending court martials."

The correspondent adds that conversation with other Russian officers reveals great bitterness against and denunciations of Admiral Alexieff for his failure to properly fortify Port Arthur and his "cowardly flight" by the last train from the fortress.

They say the torpedo boat destroyers that escaped before the surrender carried all the regimental and naval colors to Chefoo. The junior officers denounced the incapacity and folly of the government in entering upon the war and declare that all the men who return to Russia from Port Arthur are revolutionists in spirit.

SQUADRON PASSES PERIM.

Russian Vessels Going Toward Jibuti, in the Gulf of Aden.

Perim, Jan. 18.—The Russian squadron passed Perim, Straits of Bab el Mandeb, at 6 o'clock Wednesday morn-

ing going toward Jibuti, in the Gulf of Aden.

This is the division of Vice Admiral Rojestvensky's squadron commanded by Vice Admiral Botrovsky which was last reported passing Suez on Jan. 12.

THE SPOILS OF THE VICTORS.

Four Russian Warships at Port Arthur Can Be Floated.

London, Jan. 18.—The Times correspondent at Port Arthur, detailing the damage to the Russian fleet, says the battleships Perseviet and Poltava can easily be floated, but that the former's superstructure is greatly damaged and that the cruiser Bayan apparently are not seriously damaged and can be refloated. These four vessels, the correspondent says, may be saved after great expense, but the difficulties will be great, as there is no dock in Japan for battleships. The battleships Retvizan and Pobeda seem to be hopelessly damaged. As regards armament, the turret guns were all destroyed before surrender. Some of the guns of the secondary armament are intact, but most of the small guns were removed to the forts.

Three days before the surrender the ships were set on fire with kerosene and mines were exploded alongside. Russians state that the fleet was unfit for service after the engagement of Aug. 10. Coal was abundant, and it was used to protect the decks of the war vessels against howitzer shells. On the capture of Roju hill the ships were sunk by opening sluices.

RUSSIAN PRISONERS OF WAR.

Japan Now Prepared to House Thirty-five Thousand.

Tokio, Jan. 18.—The Japanese government is now prepared to house 35,000 Port Arthur and other Russian prisoners of war; 5,000 at Tangakhaya, 20,000 at Hama Tora, near Osaka, and the remainder scattered in groups of from 350 to 4,000 at different places. Lieutenant Mirsky, a Russian prisoner of war at Matsuyama, will probably be imprisoned for life, owing to his repeated attempts to escape.

CHARGES ARE FALSE

SENATOR MITCHELL OF OREGON
MAKES A STATEMENT IN
THE SENATE.

Washington, Jan. 18.—The unusual spectacle of a United States senator explaining on the floor of the senate charges made against himself in a court of law in his own state was witnessed in the senate Tuesday when Mr. Mitchell of Oregon spoke of the indictment recently returned against him by an Oregon grand jury. The senator had not previously appeared in the senate since the indictment was returned and he was received by his fellow senators with many evidences of good will. He was much affected, his emotion at times being such that he read his statement with great difficulty.

Mr. Mitchell detailed the charges against him and said that every one of them insofar as they involved him were absolutely, unqualifiedly and atrociously false, and he indignantly branded each and every one of the authors of the charges as malicious and atrocious liars.

Mr. Heyburn concluded his speech on the statehood bill and Mr. Stone gave notice of a speech Wednesday on his resolution for an investigation of charges of corruption in the campaigns of 1896 and 1904. Among the bills passed were: Transferring the control of forest reserves from the interior department to the agricultural department.

SWAYNE IMPEACHMENT CASE.

Agreement Reached in House to Vote on the Matter.

Washington, Jan. 18.—With an agreement reached to vote on the Swayne impeachment articles Wednesday at 3:30 o'clock business in the house was carried on a high pressure for more than five hours. Mr. Grosvenor furnished the text for a very vigorous speech by Bourke Cockran by the reading of a letter from Judge Pardee of New Orleans declaring that politics was at the bottom of the impeachment proceedings. The fact of a judge transmitting such a letter, Mr. Cockran declared dramatically, was "a monstrous spectacle."

Mr. Grosvenor asserted that there was no ground presented for impeachment in the report of the committee. The other defenders of the Florida judge transmitting such a letter, Mr. Lacey of Iowa, Nevins of Ohio, Moon of Pennsylvania and Crumpacker of Indiana.

Mr. Lamar of Florida closed the debate for the day, reviewing the sentiment of his state and the record of Judge Swayne. He declared there was ample ground for impeachment.

VIEWS OF MR. CANNON

SPEAKER OF THE HOUSE VOICES
HIS SENTIMENTS REGARD-

ING THE TARIFF.

BEFORE REVISION IS MADE

HE SAYS THAT IT WOULD BE BET-

TER TO WAIT FOR AT LEAST

ANOTHER YEAR.

Washington, Jan. 18.—Speaker Cannon was a guest of honor and the principal speaker at the annual banquet of the National Board of Trade Tuesday.

The speaker voiced his sentiments regarding the question of tariff legislation, river and harbor improvements and the amendment of the interstate commerce law. He reminded his hearers that this was the short session of congress and that the members were to agree on legislation that would devote approximately \$650,000,000 to the public service. If the throttle were to be opened \$100,000,000 more easily could be appropriated and yet there would be a cry for more.

Regarding the tariff question Mr. Cannon said it was the consensus of opinion that it was better to wait a year before undertaking to revise the revenue laws. "I think," he said, "we have a pretty good revenue law both as regards the customs and the internal revenue, and," he added with a smile, "we need the money."

Will Hesitate to Run the Risk.

"Under existing conditions," the speaker said, "my impression is that the congress of the United States will hesitate to run the risk of halting the business interests of the country. I trust that when adjournment of congress comes the country will get a rest substantially until the first Monday in December."

Regarding the interstate commerce law Mr. Cannon was inclined to think it possible to give the country something in the way of legal machinery that would correct the inequities that now exist. In the remaining days of congress, he added, legislation may be enacted that will tend to correct the present inequities between the distributor and the consumer.

On the subject of rivers and harbors Mr. Cannon said that wise provision would be made by congress for the improvement of our waterways and great inland seas so far as practicable.

Dennison Case Reaches Washington.

Washington, Jan. 18.—The application of Thomas Dennison of Omaha for a writ of error in the extradition proceedings against him was docketed Tuesday in the United States supreme court. The proceedings were instituted at the instance of the authorities of Iowa on a charge of having received stolen goods in that state in 1892.

EXTENSION OF TIME ALLOWED.

Request of Attorneys for Adams in Election Contest Granted.

Denver, Jan. 18.—At a joint session of the two houses of the general assembly Tuesday, to take action on the contest filed by James H. Peabody for the office of governor, the request of the attorneys for Governor Adams for an extension until 2:30 o'clock Saturday afternoon of the time to submit an answer to the charges made in the contest papers was granted by a vote of 61 to 34. By the same vote the legislature decided to proceed at once with the taking of testimony in the contest.

Upon motion of Senator Parks, a committee of five was appointed by Lieutenant Governor McDonald, who presided over the joint session, to draft a set of rules and regulations which shall govern the order of the contest. The committee is composed of three Republicans and two Democrats.

HENNEPIN county voted for Moses E. Clapp in the final windup. There was nothing else left for them to do.

THE Border Budget thinks that "Van Sant is a thing of the past, that his name has been erased from the political calendar of the state and that he paid the price of his perjury at the senatorial caucus." Isn't the Budget rubbing it into the governor just a little.

THE new mayor of Minneapolis is doing things, and among them is the enforcement of the ordinance requiring the removal of all wineroms from saloons and restaurants. The partitions that the proprietors of these resorts at first refused to move are now coming down as fast as the carpenters can do the work.

AITKIN people are of the opinion that the Soo road is about to build a connecting line between the Canadian Pacific and the Duluth, South Shore & Atlantic and that the same will run through Aitkin county from east to west, the line to run from Bemidji south around Leech Lake and east to Superior. The claim is made that the reason this route is selected in preference to one farther north is that the only way to get into their Superior terminals is from the south and the grades are much easier by this survey than by any line that can be run to the north.

It's a good thing there is something for the democratic newspapers to kick about occasionally or they would get rusty. The St. Cloud Times is not pleased because James A. Martin has been selected as the successor of Postmaster Wire in that city, and says he is a non-resident, that the appointment is to pay him for the "flop into the Dunn camp," and other unkind things that one expects from the opposition. Probably Bro. McDonald was not consulted in the selection of the successor to the present p. m., and living in such a strong democratic atmosphere where the party always dominates things this selection of a republican postmaster without democratic consent is galling. But Mr. Martin will serve the people faithfully and well in the new position, regardless of the criticism.

THE GREAT TITIAN.

His Was an All Embracing Genius, Courtlly, Serene, Majestic.

At once a genius and a favorite of fortune, Titian moved through his long life of pomp and splendor serene and self contained. He was of old and noble family, born at Pieve, in the mountain district of Cadore. By the time that he was eleven years old his father, Gregorio di Conte Vecelli, recognized that he was destined to be a painter and sent him to Venice, where he became the pupil first of Bellini and then of the great artist Giorgione. From the first indeed he enjoyed every privilege that an artist of his time could need. The doge and council of Venice recognized his ability, as did the dukes of Ferrara and Mantua. As the years went on kings, popes and emperors were his friends and patrons. In his home at Biri, a suburb of Venice, from which in one direction the snowclad Alps are visible and in the other the soft luxuriance of the Venetian lagoon, he maintained a princely household, associating with the greatest and most accomplished men of Venice, working on until he had reached the age of ninety-nine years. Even then it was no ordinary ailment, but the visitation of the plague, that carried him off, and such was the honor in which he was held that the law against the burial of the plague stricken in a church was overruled in this case, and he was laid in the tomb which he had prepared for himself in the great Church of the Frari.

No artist's life was so completely and sustainedly superb, and such, too, is the character of his work. He was great in portraiture, in landscape, in the painting of religious and mythological subjects. In any one of these departments others have rivaled him, but his glory is that he attained to the highest rank in all. He was an artist of universal gifts. His was an all embracing genius, courtly, serene, majestic. He viewed the splendor of the world in a big, healthful, ample way and represented it with the glowing brush of a supreme master of color.—Charles H. Caffin in St. Nicholas.

HOW HOMES ARE LOST.

They let their insurance run out. They bought things they did not need because they were cheap.

They subscribed for everything they could pay for on the installment plan.

The father always intended to get his life insured, but died without doing so. They did not realize how easy it is to get into debt and how hard it is to get out.

Money enough went down in drink and up in smoke to have saved the home.

They tried to do what others expected of them rather than what they could afford.

They thought it small to insist on having an agreement or understanding put in writing.

They could not say "No" and could not afford to tell their friends, "I cannot afford it."

The Language of India.

Among the 145 distinct languages spoken in British India are some possessing only a few hundred words, others rivaling English, as Dr. Grierson says, or Russian, as I would say, in their copiousness, some in which every word is a monosyllable, others in which some are elongated by agglutination till they run to ten syllables, like da-pa-l-o-ch-o-kan-tah-en-tae-tin-a-e, a Santal word, meaning "He who belongs to him who belongs to me will continue letting himself be made to fight." Some of these divers tongues lack verb and noun, others are as complex and systematic as Greek and Latin.—Nineteenth Century.

Unreasonable Woman.

His wife asked him to read to her. Taking up the paper, he turned to the woman's page and started with the first article that attracted his attention. It was by a distinguished medical authority on the subject of correct breathing and began:

"As a means for preventing wrinkles in the face it is certain that the practice of keeping the mouth shut is one of the most positive."

"That will do, sir!" she snapped. "I asked to be entertained, not to be insulted."—New York Press.

People Who Radiate Cheer.

Who can estimate the value of a sunny soul who scatters gladness and good cheer wherever he goes instead of gloom and sadness? Everybody is attracted to these cheerful faces and sunny lives and repelled by the gloomy, the morose and the sad. We envy people who radiate cheer wherever they go and fling out gladness from every pore. Money, houses and lands look contemptible beside such a disposition.—Detroit Free Press.

Could Do It With Zest.

"Going out, eh?" she sneered after their quarrel.

BISHOP TALBOT SUED.

ENGLISH GOLD LEAF.

The Reason Its Manufacturers Pack It in Bibles.

"James," said the English gold manufacturer, "we are hout of Bibles. Go downtown and buy six dozen."

James in due course returned with the Bibles in a handcart. They were taken from him by three men, their covers were torn off, and the pages were trimmed with sharp knives down to a certain small size. Then these little reduced papers were sewed together into a multitude of small books.

The small books were distributed among the hands, and in them the firm's output of gold leaf was packed—between every two Biblical leaves a leaf of gold.

"It seems irreverent, not to say sacrilegious, I know," said the head of the firm, "but we halways do so. We have done so for generations. Gold leaf is halways put on the market in little books made of Bibles.

"Why? "I'll tell you why. Gold leaf must be packed between printed instead of plain pages, for the reason that it would slip out of plain pages, which are too smooth for it, whereas the indentations made by the types on the printed pages are just sufficient to hold the leaf in place firmly. That's why printed pages are used.

"We choose among all printed pages Bible ones, for the reason that the Bible is the best printed book a-going. The type is more evenly set, and the printing is finer than in any other work, and we need the best typesetting and printing in our business, you know, for any roughness or unevenness is apt to tear the gold leaf.

"That's why all English gold leaf is packed in Bibles. It's a necessary thing to do, but all the same I've often wondered that the churches 'ave never gotten after us gold leaf manufacturers for our irreverence."—London Chronicle.

"Yes" That Meant "No."

Harry—What did Kate say when you proposed to her? Frank—She said yes. Harry—Then she is really going to marry you? Frank—Oh, dear, no! What put that into your head? The question I asked was, "Do you prefer to remain single rather than accept me?"

WEDNESDAY, JANUARY 18, 1905.

HENNEPIN county voted for Moses E. Clapp in the final windup. There was nothing else left for them to do.

THE Border Budget thinks that "Van Sant" is a thing of the past, that his name has been erased from the political calendar of the state and that he paid the price of his perfidy at the senatorial caucus. Isn't the Budget rubbing it into the governor just a little.

THE new mayor of Minneapolis is doing things, and among them is the enforcement of the ordinance requiring the removal of all wineries from saloons and restaurants. The partitions that the proprietors of these resorts at first refused to move are now coming down as fast as the carpenters can do the work.

AITKIN people are of the opinion that the Soo road is about to build a connecting line between the Canadian Pacific and the Duluth, South Shore & Atlantic and that the same will run through Aitkin county from east to west, the line to run from Bemidji south around Leech Lake and east to Superior. The claim is made that the reason this route is selected in preference to one farther north is that the only way to get into their Superior terminals is from the south and the grades are much easier by this survey than by any line that can be run to the north.

It's a good thing there is something for the democratic newspapers to kick about occasionally or they would get rusty. The St. Cloud Times is not pleased because James A. Martin has been selected as the successor of Postmaster Wire in that city, and says he is a non-resident, that the appointment is to pay him for the "flop into the Dunn camp," and other unkind things that one expects from the opposition. Probably Bro. McDonald was not consulted in the selection of the successor to the present p. m., and living in such a strong democratic atmosphere where the party always dominates things this selection of a republican postmaster without democratic consent is galling. But Mr. Martin will serve the people faithfully and well in the new position, regardless of the criticism.

Miss Elsie Smith of Brainerd opened her dancing school yesterday by receiving the children's class in the afternoon and the evening class from 8 to 10. People of all ages compose this class.—Aitkin Age.

THE GREAT TITIAN.

His Was an All Embracing Genius, Courtly, Serene, Majestic.

At once a genius and a favorite of fortune, Titian moved through his long life of pomp and splendor serene and self contained. He was of old and noble family, born at Pieve, in the mountain district of Cadore. By the time that he was eleven years old his father, Gregorio di Conte Vecelli, recognized that he was destined to be a painter and sent him to Venice, where he became the pupil first of Bellini and then of the great artist Giorgione. From the first indeed he enjoyed every privilege that an artist of his time could need. The doge and council of Venice recognized his ability, as did the dukes of Ferrara and Mantua. As the years went on kings, popes and emperors were his friends and patrons. In his home at Biri, a suburb of Venice, from which in one direction the snowclad Alps are visible and in the other the soft luxuriance of the Venetian lagoon, he maintained a princely household, associating with the greatest and most accomplished men of Venice, working on until he had reached the age of ninety-nine years. Even then it was no ordinary ailment, but the visitation of the plague, that carried him off, and such was the honor in which he was held that the law against the burial of the plague stricken in a church was overruled in this case, and he was laid in the tomb which he had prepared for himself in the great Church of the Frari.

No artist's life was so completely and sustainedly superb, and such, too, is the character of his work. He was great in portraiture, in landscape, in the painting of religious and mythological subjects. In any one of these departments others have rivaled him, but his glory is that he attained to the highest rank in all. He was an artist of universal gifts. His was an all embracing genius, courtly, serene, majestic. He viewed the splendor of the world in a big, healthful, ample way and represented it with the glowing brush of a supreme master of color.—Charles H. Caffin in St. Nicholas.

HOW HOMES ARE LOST.

They let their insurance run out.

They bought things they did not need because they were cheap.

They subscribed for everything they could pay for on the installment plan.

The father always intended to get his life insured, but died without doing so. They did not realize how easy it is to get into debt and how hard it is to get out.

Money enough went down in drink and up in smoke to have saved the home.

They tried to do what others expected of them rather than what they could afford.

They thought it small to insist on having an agreement or understanding put in writing.

They could not say "No" and could not afford to tell their friends, "I cannot afford it."

When the shoe began to pinch they "really did not see where they could retrench." Habit had made luxuries seem necessities.—Success.

THE GREAT TITIAN.

His was an All Embracing Genius, Courtlly, Serene, Majestic.

At once a genius and a favorite of fortune, Titian moved through his long life of pomp and splendor serene and self contained. He was of old and noble family, born at Pieve, in the mountain district of Cadore. By the time that he was eleven years old his father, Gregorio di Conte Vecelli, recognized that he was destined to be a painter and sent him to Venice, where he became the pupil first of Bellini and then of the great artist Giorgione. From the first indeed he enjoyed every privilege that an artist of his time could need. The doge and council of Venice recognized his ability, as did the dukes of Ferrara and Mantua. As the years went on kings, popes and emperors were his friends and patrons. In his home at Biri, a suburb of Venice, from which in one direction the snowclad Alps are visible and in the other the soft luxuriance of the Venetian lagoon, he maintained a princely household, associating with the greatest and most accomplished men of Venice, working on until he had reached the age of ninety-nine years. Even then it was no ordinary ailment, but the visitation of the plague, that carried him off, and such was the honor in which he was held that the law against the burial of the plague stricken in a church was overruled in this case, and he was laid in the tomb which he had prepared for himself in the great Church of the Frarl.

No artist's life was so completely and sustainedly superb, and such, too, is the character of his work. He was great in portraiture, in landscape, in the painting of religious and mythological subjects. In any one of these departments others have rivaled him, but his glory is that he attained to the highest rank in all. He was an artist of universal gifts. His was an all embracing genius, courtly, serene, majestic. He viewed the splendor of the world in a big, healthful, ample way and represented it with the glowing brush of a supreme master of color.—Charles H. Caffin in St. Nicholas.

HOW HOMES ARE LOST.

They let their insurance run out. They bought things they did not need because they were cheap.

They subscribed for everything they could pay for on the installment plan.

The father always intended to get his life insured, but died without doing so.

They did not realize how easy it is to get into debt and how hard it is to get out.

Money enough went down in drink and up in smoke to have saved the home.

They tried to do what others expected of them rather than what they could afford.

They thought it small to insist on having an agreement or understanding put in writing.

They could not say "No" and could not afford to tell their friends, "I cannot afford it."

When the shoe began to pinch they "really did not see where they could retrench." Habit had made luxuries seem necessities.—Success.

The Language of India.

Among the 145 distinct languages spoken in British India are some possessing only a few hundred words, others rivaling English, as Dr. Grierson says, or Russian, as I would say, in their copiousness, some in which every word is a monosyllable, others in which some are elongated by agglutination till they run to ten syllables, like da-pa-l-cho-akan-tahen-tae-tin-ae, a Santali word, meaning "He who belongs to him who belongs to me will continue letting himself be made to fight." Some of these divers tongues lack verb and noun, others are as complex and systematic as Greek and Latin.—Nineteenth Century.

Unreasonable Woman.

His wife asked him to read to her. Taking up the paper, he turned to the woman's page and started with the first article that attracted his attention. It was by a distinguished medical authority on the subject of correct breathing and began:

"As a means for preventing wrinkles in the face it is certain that the practice of keeping the mouth shut is one of the most positive."

"That will do, sir!" she snapped. "I asked to be entertained, not to be insulted."—New York Press.

People Who Radiate Cheer.

Who can estimate the value of a sunny soul who scatters gladness and good cheer wherever he goes instead of gloom and sadness? Everybody is attracted to these cheerful faces and sunny lives and repelled by the gloomy, the morose and the sad. We envy people who radiate cheer wherever they go and cling out gladness from every pore. Money, houses and lands look contemptible beside such a disposition.—Detroit Free Press.

Could Do It With Zest.

"Going out, eh?" she sneered after their quarrel.

"Yes," replied her husband, "I'm going to congratulate Ned Pilkinton."

"You're slow. The engagement was announced six weeks ago."

"Yes, but it was broken off yesterday."—Philadelphia Ledger.

Washington, Jan. 16.—The Post says Senator Mitchell, after consulting a number of friends and fellow senators, has decided to go into the senate Monday or Tuesday, obtain recognition at the first opportunity, and make a statement in self-defense regarding his indictment in connection with the Oregon land frauds. Whether or not he will remain in the senate and continue to attend its sessions he has not determined.

BISHOP TALBOT SUED.

Rev. Dr. Irvine Brings Suit for Damages for Slander.

Philadelphia, Pa., Jan. 18.—The controversy between Rt. Rev. Ethelbert Talbot, bishop of the Protestant Episcopal diocese of Central Pennsylvania, and Rev. Dr. I. N. Irvine took a new turn Tuesday and it is probable that the whole affair will be aired in the civil courts.

Dr. Irvine Tuesday filed notice of a suit for slander against Bishop Talbot, asking damages.

The papers were served on the Bishop in this city Tuesday.

Will Wrestle for Championship.

Cleveland, O., Jan. 18.—Wrestlers Tom Jenkins and Frank Gotch have been matched to wrestle for the championship of the United States, a title which Gotch now holds, having won it from Jenkins a year ago. The contest will take place in Cleveland on Feb. 4.

Deadlock Partly Broken.

Dover, Del., Jan. 14.—William Denny, Union Republican, was Friday elected speaker of the house, thus breaking the deadlock in the legislature, at least so far as the house is concerned.

Hale Gets a Fifth Term.

Augusta, Me., Jan. 18.—Engene Hale was re-elected to the United States senate for a fifth term by the Maine legislature Tuesday.

TELEGRAPHIC BREVITIES.

Fire in one of the main business blocks of Hopton, Ill., Sunday caused a loss of about \$100,000.

Former Congressman Stephen Harris died suddenly at his home in Bucyrus, O., Sunday, aged eighty-one.

Robert Swain Gifford, the landscape painter, died Sunday of angina pectoris at his home in New York city.

At Manistique, Mich., Sunday John Gallagher pleaded guilty to the charge of manslaughter. He is accused of beating his father to death while intoxicated.

ENGLISH GOLD LEAF.

The Reason Its Manufacturers Pack It in Bibles.

"James," said the English gold manufacturer, "we are hout of Bibles. Go downtown and buy six dozen."

James in due course returned with the Bibles in a handcart. They were taken from him by three men, their covers were torn off, and the pages were trimmed with sharp knives down to a certain small size. Then these little reduced papers were sewed together into a multitude of small books.

The small books were distributed among the hands, and in them the firm's output of gold leaf was packed—between every two Biblical leaves a leaf of gold.

"It seems irreverent, not to say sacrilegious, I know," said the head of the firm, "but we halways do so. We have done so for generations. Gold leaf is halways put on the market in little books made of Bibles.

"Why?" "I'll tell you why. Gold leaf must be packed between printed instead of plain pages, for the reason that it would slip out of plain pages, which are too smooth for it, whereas the indentations made by the types on the printed pages are just sufficient to hold the leaf in place firmly. That's why printed pages are used.

"We choose among all printed pages Bible ones, for the reason that the Bible is the best printed book a-going. The type is more evenly set, and the printing is finer than in any other work, and we need the best typesetting and printing in our business, you know, for any roughness or unevenness is apt to tear the gold leaf.

"That's why all English gold leaf is packed in Bibles. It's a necessary thing to do, but all the same I've often wondered that the churches 'ave never gotten after us gold leaf manufacturers for our irreverence."—London Chronicle.

"Yes" That Meant "No."

Harry—What did Kate say when you proposed to her? Frank—She said yes. Harry—Then she is really going to marry you? Frank—Oh, dear, no! What put that into your head? The question I asked was, "Do you prefer to remain single rather than accept me?"

AIR TIGHT STOVE EXPLODED

Home of A. N. Briggs on East Pine
Street Damaged by Fire Yesterday
Afternoon.

A hot stove, an explosion of gas and a fainting woman were a combination that made strenuous times on East Pine street yesterday afternoon. The stove, an air tight, which was in the house occupied by A. N. Briggs at 1405 East Pine street, became overheated and exploded. Mrs. Briggs, who was alone at the time, started for a neighbor's to give the alarm and fell in a faint in the yard. By the time the neighbors got her cared for the fire got quite a start, but the fire ladders were promptly on hand and soon had it under control. The furniture was damaged to the amount of probably \$500, fully covered by insurance. The house, which was owned by P. B. Nettleton, was damaged several hundred dollars and this loss was also fully covered by insurance.

Lecture on Socialism.

Thos. Van Lear, of Minneapolis, will deliver an address this evening at Trades and Labor hall on socialism. The gentleman is said to be a fluent speaker and will expound the principles of socialism in an entertaining manner. Concerning him the Eau Claire, Wis., Leader says: "His speech was exhaustive and showed thorough familiarity with his subject. His climaxes were loudly applauded. At times, extremely caustic and socialistic, he held the attention of his audience closely. It was an able effort."

DR. JOHN R. HOWES

El Paso Paper Testifies to His Worth as
an Enterprising and Public Spirited
Citizen.

The El Paso Herald, in commenting on the death of Dr. J. R. Howes, of Las Cruces, N. M., formerly a resident of Brainerd, said of him:

"It is said of him that his extraordinary courage and resource seldom failed, even under circumstances in which any other man would have fallen by the roadside, never to rise again; and he had the happy faculty of making friends wherever he went. And just when his long struggle was about to be crowned with success death took him. Overworked and exhausted by a hard trip to Chicago, which had been rich in results, and which only needed the final touch to complete the good work, he finally succumbed to the disease contracted on his trip, although he fought against it almost to the last with characteristic mental and physical courage.

"The building up of the Mesilla valley had been for some time his object. It was his ceaseless industry and enthusiasm, the confidence with which he was able to transpire strangers, which have done much for that section of late. His constantly cherished desire to return to the practice of his profession was almost within reach of his hand—he was just about to reap his well-earned reward in seeing the development on the right lines of the beautiful valley for whose awakening he was largely responsible—when his strength gave out.

"He had organized a company for developing many enterprises in the Mesilla valley, and, had he lived, it would not have been long till he would have witnessed their successful conclusion."

Evangelistic Meetings.

A deep spiritual interest is being manifested in the evangelistic meetings that are being held each evening in the American Baptist church. Pastor W. T. Milliken, of Park Rapids, who was announced as the chief speaker of the meetings, has not been present on account of illness, but his place has been ably filled by Rev. W. J. Palm, of the Presbyterian church, who will preach each evening this week except Saturday. Young and old of all classes and creeds are gladly welcomed at these meetings. Special music is rendered each evening.

COMFORTING WORDS

Many a Brainerd Household Will Find Them so.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how the this great change can be brought about will prove comforting words to hundreds of Brainerd readers.

Mrs. Peter Hedwall, of 411 Second Ave., N. E. Brainerd, Minn., says: "The use of Doan's Kidney Pills by Mr. Hedwall proved them to be worthy of all confidence. I am not exaggerating in saying that it only required a few doses to remove a persistent pain in the small of the back over the kidneys, from which he had suffered considerably. Doan's Kidney Pills were procured at H. P. Dunn & Co.'s drug store, on Front street. Our experience with this remedy proves that anyone suffering from backache or kidney complaint in any of its various forms would do well to try Doan's Kidney Pills. We endorse them emphatically."

GLOBE HOTEL WAS
DAMAGED BY FIRE

Almost a Disastrous Conflagration
Last Night—Narrow Escape
from Big Fire

ONE HYDRANT WAS FROZEN

Part of Roof Burned Off Salvation
Army Barracks and Furniture
of Hotel Damaged.

Brainerd had another dangerously narrow escape from a big fire last night. About midnight fire was discovered in a closet in the rooms over the Salvation Army barracks on Front street. These rooms are rented by F. A. Miller of the Globe restaurant and are used for rooming purposes, but at the time they were occupied only by a brother of Mr. Miller. The cause of the fire is not known. The entire roof of the rear part of the building was burned off and the furniture was almost completely ruined by fire and water. Mr. Miller places the damage to the furniture at \$500 at least with no insurance. The furniture in the upper stories of the Globe hotel alongside was also badly damaged by water to the extent of at least \$300. This was owned by McCarty & Derossier and was covered in part by insurance.

The building is a part of the Jerome Kelliher estate, now in bankruptcy, and is managed by Attorney Blewitt. The loss to the building will probably be \$1,000, fully covered by insurance.

The danger of a general conflagration was greatly increased from the fact that the hydrant at the corner of Sixth and Front streets was found to be frozen.

MICHAEL'S WHITE SALE

A New Feature in Merchandising in
Brainerd--Has Met With Much
Encouragement

There is nothing new under the sun, is an old saying, but the White Sale being held this week by the H. F. Michael Co. is something new for Brainerd. The store is tastefully decorated in white goods of all kinds and the sales ladies all wear white waists. The store room looks very handsome and attractive and when a DISATACH man dropped in there yesterday the room was crowded and the clerks were all busy. Many ladies are laying in a supply of these goods for next summer and express themselves as well pleased with the selection of goods presented for their approval. The sale will be continued all this week.

Nervous Headache

The Cause of Much Suffering to
Women is Permanently Cured
When the System is Built
up by

DR. A. W. CHASE'S NERVE PILLS

When the head aches hard and throbs; when the neck and eyes grow stiff, the face flushes or grows deadly white; when any excitement or over effort brings on an attack of nervous headache so severe that it leaves you weak, trembly, shaky and utterly worthless for days, it is a certain indication that the nervous system is shattered—that resistive power is gone—that you need a medicine that will rebuild and re-supply the lost nerve force, that will so strengthen you that you can resist and overcome these terrible seizures. Such a medicine is Dr. A. W. Chase's Nerve Pills, a medicine that does not relieve but goes to the root of the trouble and positively cures.

Mrs. John Fall of Fourth St., Toronto, O., Says:

"I like Dr. A. W. Chase's Nerve Pills because they cured my nervous sick headaches—these headaches used to play me out and leave me weak and nervous, the pain being so severe. My eyes used to get stiff and sore during the attack and the neck so stiff I could hardly turn it. The Nerve Pills, however, proved to be just what I needed and cured the attacks in a hurry. As a result I feel steady in nerves, physically strong and vigorous and in every way sound and well. This makes me feel I can't speak too highly of the medicine." 50 cents a box at dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package.

Don't
Neglect Yourself.

1468 Second Street,
LOUISVILLE, KY., April 14, 1903.

I have been weak and sickly for the past four years, caused by irregularity and carelessness regarding the laws of health, but about five months ago my condition became very serious. I had severe backache and suffered a constant dull pain in my head. I spent weary, painful days, and miserable, restless nights. The doctor told me that I must have patience.

His medicine did not, however, give me even temporary relief and as I had been told of the curative qualities of Wine of Cardui I decided to try it.

I found that it relieved me of pain. As my general health improved my other troubles were gradually diminished and after five weeks' use of the Wine of Cardui I was once more a well and happy woman.

Director,

WINE OF CARDUI

Severe headaches, bearing-down pains, indigestion, loss of appetite and nervousness are symptoms of female weakness and should be given prompt attention. If you are troubled with menstrual irregularities do not let them run on. They will certainly grow into dangerous and chronic troubles. Get a bottle of Wine of Cardui and begin treatment at once.

All druggists sell \$1.00 bottles of Wine of Cardui.

"HEART AND SWORD"

There is quite an awakening among theatre goers in anticipation of the performance at the Brainerd opera house on next Monday evening, January 23, when Mr. Harold Nelson, the eminent young Canadian actor, will be seen for the first time in this city in the scenic production of the romantic play, "Heart and Sword." The interest might be said to be threefold first in view of the fact that "Heart and Sword" has been seen here before and made a hit, second because the production is equipped and managed by Mr. C. P. Walker, who is known by many Brainerd people and who is known to never do things by halves and last but not least because there is a keen interest manifested in the coming of this leading actor of Canada, Mr. Harold Nelson, who appears in the title role, that of Prince Victor. This production is the most elaborate with which manager, Mr. C. P. Walker, has yet equipped him. Three very beautiful, yet distinctly different scenes, are the Tapestry Chamber at the Court of Steinhausen, the grey old towers of Heinhault, and the garden of the Berry Bush Inn, where takes place a most exciting duel. The modern lighting equipment carried by the company enhances the beauty of the stage settings. It is this completeness of detail which gives Mr. Walker his enviable reputation as a producer of first-class dramatic entertainments. Seat sale opens Saturday morning at 10 o'clock at Dunn's.

AIR TIGHT STOVE EXPLODED

Home of A. N. Briggs on East Pine Street Damaged by Fire Yesterday Afternoon.

A hot stove, an explosion of gas and a fainting woman were a combination that made strenuous times on East Pine street yesterday afternoon. The stove, an air tight, which was in the house occupied by A. N. Briggs at 1405 East Pine street, became overheated and exploded. Mrs. Briggs, who was alone at the time, started for a neighbor's to give the alarm and fell in a faint in the yard. By the time the neighbors got her cared for the fire got quite a start, but the fire ladders were promptly on hand and soon had it under control. The furniture was damaged to the amount of probably \$500, fully covered by insurance. The house, which was owned by P. B. Nettleton, was damaged several hundred dollars and this loss was also fully covered by insurance.

Lecture on Socialism.

Thos. Van Lear, of Minneapolis, will deliver an address this evening at Trades and Labor hall on socialism. The gentleman is said to be a fluent speaker and will expound the principles of socialism in an entertaining manner. Concerning him the Eau Claire, Wis., Leader says: "His speech was exhaustive and showed thorough familiarity with his subject. His climaxes were loudly applauded. At times, extremely caustic and socialistic, he held the attention of his audience closely. It was an able effort."

DR. JOHN R. HOWES

El Paso Paper Testifies to His Worth as an Enterprising and Public Spirited Citizen.

The El Paso Herald, in commenting on the death of Dr. J. R. Howes, of Las Cruces, N. M., formerly a resident of Brainerd, said of him:

"It is said of him that his extraordinary courage and resource seldom failed, even under circumstances in which any other man would have fallen by the roadside, never to rise again; and he had the happy faculty of making friends wherever he went. And just when his long struggle was about to be crowned with success death took him. Overworked and exhausted by a hard trip to Chicago, which had been rich in results, and which only needed the final touch to complete the good work, he finally succumbed to the disease contracted on his trip, although he fought against it almost to the last with characteristic mental and physical courage.

"The building up of the Mesilla valley had been for some time his object. It was his ceaseless industry and enthusiasm, the confidence with which he was able to transpire strangers, which have done much for that section of late. His constantly cherished desire to return to the practice of his profession was almost within reach of his hand—he was just about to reap his well-earned reward in seeing the development on the right lines of the beautiful valley for whose awakening he was largely responsible—when his strength gave out. "He had organized a company for developing many enterprises in the Mesilla valley, and, had he lived, it would not have been long till he would have witnessed their successful conclusion."

Evangelistic Meetings.

A deep spiritual interest is being manifested in the evangelistic meetings that are being held each evening in the American Baptist church. Pastor W. T. Milliken, of Park Rapids, who was announced as the chief speaker of the meetings, has not been present on account of illness, but his place has been ably filled by Rev. W. J. Palm, of the Presbyterian church, who will preach each evening this week except Saturday. Young and old of all classes and creeds are gladly welcomed at these meetings. Special music is rendered each evening.

COMFORTING WORDS

Many a Brainerd Household Will Find Them so.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how the this great change can be brought about will prove comforting words to hundreds of Brainerd readers.

Mrs. Peter Hedwall, of 411 Second Ave., N. E. Brainerd, Minn., says: "The use of Doan's Kidney Pills by Mr. Hedwall proved them to be worthy of all confidence. I am not exaggerating in saying that it only required a few doses to remove a persistent pain in the small of the back over the kidneys, from which he had suffered considerably. Doan's Kidney Pills were procured at H. P. Dunn & Co.'s drug store, on Front street. Our experience with this remedy proves that anyone suffering from backache or kidney complaint in any of its various forms would do well to try Doan's Kidney Pills. We endorse them emphatically."

GLOBE HOTEL WAS
DAMAGED BY FIRE

Almost a Disastrous Conflagration Last Night—Narrow Escape from Big Fire

ONE HYDRANT WAS FROZEN

Part of Roof Burned Off Salvation Army Barracks and Furniture of Hotel Damaged.

Brainerd had another dangerously narrow escape from a big fire last night. About midnight fire was discovered in a closet in the rooms over the Salvation Army barracks on Front street. These rooms are rented by F. A. Miller of the Globe restaurant and are used for rooming purposes, but at the time they were occupied only by a brother of Mr. Miller. The cause of the fire is not known. The entire roof of the rear part of the building was burned off and the furniture was almost completely ruined by fire and water. Mr. Miller places the damage to the furniture at \$500 at least with no insurance. The furniture in the upper stories of the Globe hotel alongside was also badly damaged by water to the extent of at least \$300. This was owned by McCarty & Derossier and was covered in part by insurance.

The building is a part of the Jerome Kelliher estate, now in bankruptcy, and is managed by Attorney Blewitt. The loss to the building will probably be \$1,000, fully covered by insurance.

The danger of a general conflagration was greatly increased from the fact that the hydrant at the corner of Sixth and Front streets was found to be frozen.

Lecture on Socialism.

Thos. Van Lear, of Minneapolis, will deliver an address this evening at Trades and Labor hall on socialism. The gentleman is said to be a fluent speaker and will expound the principles of socialism in an entertaining manner. Concerning him the Eau Claire, Wis., Leader says:

"His speech was exhaustive and showed thorough familiarity with his subject. His climaxes were loudly applauded. At times, extremely caustic and socialistic, he held the attention of his audience closely. It was an able effort."

DR. JOHN R. HOWES

El Paso Paper Testifies to His Worth as an Enterprising and Public Spirited Citizen.

The El Paso Herald, in commenting on the death of Dr. J. R. Howes, of Las Cruces, N. M., formerly a resident of Brainerd, said of him:

"It is said of him that his extraordinary courage and resource seldom failed, even under circumstances in which any other man would have fallen by the roadside, never to rise again; and he had the happy faculty of making friends wherever he went. And just when his long struggle was about to be crowned with success death took him. Overworked and exhausted by a hard trip to Chicago, which had been rich in results, and which only needed the final touch to complete the good work, he finally succumbed to the disease contracted on his trip, although he fought against it almost to the last with characteristic mental and physical courage.

"The building up of the Mesilla valley had been for some time his object. It was his ceaseless industry and enthusiasm, the confidence with which he was able to transpire strangers, which have done much for that section of late. His constantly cherished desire to return to the practice of his profession was almost within reach of his hand—he was just about to reap his well-earned reward in seeing the development on the right lines of the beautiful valley for whose awakening he was largely responsible—when his strength gave out. "He had organized a company for developing many enterprises in the Mesilla valley, and, had he lived, it would not have been long till he would have witnessed their successful conclusion."

Evangelistic Meetings.

A deep spiritual interest is being manifested in the evangelistic meetings that are being held each evening in the American Baptist church. Pastor W. T. Milliken, of Park Rapids, who was announced as the chief speaker of the meetings, has not been present on account of illness, but his place has been ably filled by Rev. W. J. Palm, of the Presbyterian church, who will preach each evening this week except Saturday. Young and old of all classes and creeds are gladly welcomed at these meetings. Special music is rendered each evening.

ROYAL ARCANUM INITIATES

Class of Fifteen Initiated Last Evening--

Speaking and Banquet Follow

the Work.

The Royal Arcanum held a very pleasant and profitable meeting at Odd Fellows hall last evening. The meeting was in charge of Harry Taylor, deputy grand regent, who conducted the work of initiating a class of fifteen. F. H. Palmer, of Minneapolis, grand regent of the state of Minnesota, was present and assisted in exemplifying the work. After the initiatory exercises speeches were listened to from Messrs. Palmer and Taylor, E. O. Webb, S. R. Adair and A. G. Trommald. After the speaking those present to the number of about 60 sat down to tasty refreshments, served under the supervision of W. J. COMFORTING WORDS

Many a Brainerd Household Will Find Them so.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how the this great change can be brought about will prove comforting words to hundreds of Brainerd readers.

Mrs. Peter Hedwall, of 411 Second Ave., N. E. Brainerd, Minn., says: "The use of Doan's Kidney Pills by Mr. Hedwall proved them to be worthy of all confidence. I am not exaggerating in saying that it only required a few doses to remove a persistent pain in the small of the back over the kidneys, from which he had suffered considerably. Doan's Kidney Pills were procured at H. P. Dunn & Co.'s drug store, on Front street. Our experience with this remedy proves that anyone suffering from backache or kidney complaint in any of its various forms would do well to try Doan's Kidney Pills. We endorse them emphatically."

GLOBE HOTEL WAS DAMAGED BY FIRE

Almost a Disastrous Conflagration Last Night—Narrow Escape from Big Fire

ONE HYDRANT WAS FROZEN

Part of Roof Burned Off Salvation Army Barracks and Furniture of Hotel Damaged.

Brainerd had another dangerously narrow escape from a big fire last night. About midnight fire was discovered in a closet in the rooms over the Salvation Army barracks on Front street. These rooms are rented by F. A. Miller of the Globe restaurant and are used for rooming purposes, but at the time they were occupied only by a brother of Mr. Miller. The cause of the fire is not known. The entire roof of the rear part of the building was burned off and the furniture was almost completely ruined by fire and water. Mr. Miller places the damage to the furniture at \$500 at least with no insurance. The furniture in the upper stories of the Globe hotel alongside was also badly damaged by water to the extent of at least \$300. This was owned by McCarty & Derossier and was covered in part by insurance.

The building is a part of the Jerome Kelliher estate, now in bankruptcy, and is managed by Attorney Blewitt. The loss to the building will probably be \$1,000, fully covered by insurance.

The danger of a general conflagration was greatly increased from the fact that the hydrant at the corner of Sixth and Front streets was found to be frozen.

We would thank any lady who has found

DEATH OF MRS. HEDDEN

Mother of Mrs. Albert Angel Died at the Angel Home in this City Last Night.

Mrs. Margaret Hedden died at the home of her daughter, Mrs. Albert Angel, 424 South Seventh street, at 1:30 o'clock this morning. Mrs. Hedden had been a long sufferer with a cancer, and had, through all the terrible suffering, been cheerful and maintained a sweet Christian helpfulness that has made her beloved by all who knew her. The funeral will be held Friday at 12 o'clock at the home of Mr. Angel, after which the remains will be taken to her former home at Wadena for burial.

Mrs. Hedden was born March 7, 1826, at Damascus, Penn. On September 26, 1850, she was married to Enos Hedden, and in 1872 they came to Minnesota, settling at Leroy and then coming to Wadena where Mr. Hedden died in 1900. Since his death Mrs. Hedden has lived with her daughter, Mrs. Angel, in this city. She is survived by three daughters, Mrs. Carrie Gough, of Lyndes, Mont., and Mrs. Margie Angel and Miss Emma Hedden, of this city.

MICHAEL'S WHITE SALE

A New Feature in Merchandising in Brainerd--Has Met With Much

Encouragement

There is nothing new under the sun, is an old saying, but the White Sale being held this week by the H. F. Michael Co. is something new for Brainerd. The store is tastefully decorated in white goods of all kinds and the sales ladies all wear white waists. The store room looks very handsome and attractive and when a DISPATCH man dropped in there yesterday the room was crowded and the clerks were all busy. Many ladies are laying in a supply of these goods for next summer and express themselves as well pleased with the selection of goods presented for their approval. The sale will be continued all this week.

Mike Peterson Rents the west Store Room in the Fitger Building—North Store Room Rented Too

P. C. Schmidt, of Duluth, attorney for the Fitger Brewing Co., arrived in the city today noon. Mr. Schmidt has charge, also, of the real estate of the company and is here on business matters in connection with the brick block they are erecting at the corner of Eighth and Laurel. He states that the west store room has been leased to Mike Peterson, formerly with Henry Moberg, who will put in an up-to-date saloon. Mr. Peterson has also leased the upper floor. This will be fitted up as rooming apartments with all the modern conveniences. The store room in the north end of the building, facing Broadway, has also been rented for a saloon. The future proprietor is a well known Brainerd man who does not want his name divulged as yet. This leaves the corner store unrented. Mr. Schmidt says that they want to rent it for any business except a grocery or a saloon.

Nervous Headache

The Cause of Much Suffering to Women is Permanently Cured When the System is Built up by

DR. A. W. CHASE'S NERVE PILLS

When the head aches hard and throbs; when the neck and eyes grow stiff, the face flushes or grows deadly white; when any excitement or over effort brings on an attack of nervous headache so severe that it leaves you weak, tremulous, shaky and utterly worthless for days, it is a certain indication that the nervous system is shattered—that resistive power is gone—that you need a medicine that will rebuild and re-supply the lost nerve force, that will so strengthen you that you can resist and overcome these terrible seizures. Such a medicine is Dr. A. W. Chase's Nerve Pills, a medicine that does not relieve but goes to the root of the trouble and positively cures.

Mrs. John Fall of Fourth St., Tor-

onto, O., Says: "I like Dr. A. W. Chase's Nerve Pills because they cured my nervous sick headaches—these headaches used to lay me out and leave me weak and nervous, the pain being so severe. My eyes used to get stiff and sore during the attack and the neck so stiff I could hardly turn it. The Nerve Pills, however, proved to be just what I needed and cured the attacks in a hurry. As a result I feel steady in nerves, physically strong and vigorous and in every way sound and well. This makes me feel I can't speak too highly of the medicine." 50 cents a box at dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package.

Don't Neglect Yourself.

1468 Second Street, LOUISVILLE, KY., April 14, 1903.

I have been weak and sickly for the past four years, caused by irregularity and carelessness regarding the laws of health, but about five months ago my condition became very serious. I had severe backache and suffered a constant dull pain in my head. I spent weary, painful days, and miserable, restless nights. The doctor told me that I must have patience.

His medicine did not, however, give me even temporary relief and as I had been told of the curative qualities of Wine of Cardui I decided to try it.

I found that it relieved me of pain. As my general health improved my other troubles were gradually diminished and after five weeks' use of the Wine of Cardui I was once more a well and happy woman.

Mrs. L. M. Thompson

Director, BEETHOVEN MUSICAL SOCIETY.

WINE OF CARDUI

Wine of Cardui regulates the menstrual flow, banishes headaches, backaches and bearing-down pains. Severe headaches, bearing-down pains, indigestion, loss of appetite and nervousness are symptoms of female weakness and should be given prompt attention. If you are troubled with menstrual irregularities do not let them run on. They will certainly grow into dangerous and chronic troubles. Get a bottle of Wine of Cardui and begin treatment at once.

All druggists sell \$1.00 bottles of Wine of Cardui.

MUSIC AND DRAMA.

"HEART AND SWORD"

There is quite an awakening among theatre goers in anticipation of the performance at the Brainerd opera house on next Monday evening, January 23, when Mr. Harold Nelson, the eminent young Canadian actor, will be seen for the first time in this city in the scenic production of the romantic play, "Heart and Sword." The interest might be said to be threefold first in view of the fact that "Heart and Sword" has been seen here before and made a hit, second because the production is equipped and managed by Mr. C. P. Walker, who is known by many Brainerd people and who is known to never do things by halves and last but not least because there is a keen interest manifested in the coming of this leading actor of Canada, Mr. Harold Nelson, who appears in the title role, that of Prince Victor.

This production is the most elaborate with which manager, Mr. C. P. Walker, has yet equipped him. Three very beautiful, yet distinctly different scenes, are the Tapestry Chamber at the Court of Steinhausen, the grey old towers of Heinhalt, and the garden of the Berry Bush Inn, where takes place a most exciting duel. The modern lighting equipment carried by the company enhances the beauty of the stage settings. It is this completeness of detail which gives Mr. Walker his enviable reputation as a producer of first-class dramatic entertainments. Seat sale opens Saturday morning at 10 o'clock at Dunn's.

BURIED IN THE RUINS

HUNDREDS OF RUSSIANS ARE
CRUSHED IN THE DEBRIS OF
THEIR HOMES.
EARTHQUAKE WRECKS TOWN
ENTIRE LOWER PORTION OF SHE-
MAKHA IS LAID IN RUINS
BY THE SHOCK.

London, Jan. 18.—A dispatch from St. Petersburg to a news agency reports that an earthquake at Shemakha, seventy-six miles northwest of Baku, buried hundreds of people in the ruins of buildings in the lower part of town, which was densely populated despite the decision after the earthquake of three years ago that no more houses should be built there.

ARGUMENTS BY ATTORNEYS.
New Ulm Murder Trial Rapidly Near-
ing the End.

New Ulm, Minn., Jan. 18.—The state closed its case against Dr. George R. Koch, accused of the murder of Dr. L. A. Gebhardt, at 9:20 a. m. and the defense closed five minutes later. At 9:40 former Attorney General Childs began the argument for the state.

The testimony of Asa P. Brooks to the effect that Dr. Koch was not the man he saw in the act of killing Dr. Gebhardt stands unimpeached. It was the intention of the state to call W. C. Murfin, an intimate friend of Brooks, to the stand in an effort to impeach Brooks' testimony on the theory that Brooks would have told him the real facts if he told any one. The effort of the state failed because it was found that no foundation for the impeachment had been laid.

Mr. Childs concluded his argument for the state shortly after noon and was followed by Attorney Somerville for the defense.

Judge Weber will deliver his charge and the case will go to the jury Wednesday. The outlook is for acquittal.

HOLDS A CLOSED SESSION.
North Sea Commission Meets in the
French Capital.

Paris, Jan. 18.—The international commission appointed to inquire into the North sea incident held a closed session Tuesday at the foreign office and received statements of particulars from both sides, which will be made public at the session of the commission on Thursday next.

Notwithstanding reports that the formal submission of the cases might lead to a modification of the Russian defense concerning the presence of Japanese torpedo boats in the North sea at the time the Russian squadron fired on the Hull fishing fleet off Dogger bank, it is learned that the Russian case submitted Tuesday has not been altered in that particular.

The British case follows the general lines heretofore disclosed and also includes documentary evidence so voluminous that it required three men to carry it. The Hull fishermen witnesses are expected to be summoned next week.

TO DISCREDIT TESTIMONY.

Senator Smoot's Attorneys Put Wit-
nesses on the Stand.

Washington, Jan. 18.—Attorneys for Senator Smoot Tuesday put upon the stand witnesses to discredit the testimony of the three witnesses for the protestants who gave what they alleged to be the oaths taken by Mormons who go through the temples and take the endowment ceremony of the Mormon church. The session was shorter than usual Tuesday because of the absence of witnesses. It is expected several witnesses will arrive so that the hearing will go on Wednesday.

FATAL DYNAMITE EXPLOSION.

Two Men Killed and Four Others Se-
verely Injured.

Bedford, Ind., Jan. 18.—By the explosion of dynamite one mile east of Bedford Tuesday evening two men were killed and four others were severely injured.

The dead are William Jenkins and William Garrett.
The men, who were employees of the Central Union Telephone company, had been working on the line which is being run east of the city. They had quit work, and were returning to town in a two horse wagon into which the dynamite had been thrown. The jarring of the wagon, it is presumed, caused the explosion.

Sculptor Commits Suicide.
New York, Jan. 18.—Henry G. Schelling, fifty-five years of age, a noted sculptor and designer of architectural decorations, committed suicide Tuesday by cutting his throat with a modelling knife. Mental aberration due to excessive pain from an operation prompted the act.

Confirmed by the Senate.

Washington, Jan. 18.—The senate Tuesday in executive session confirmed the following nominations, John E. Adams, receiver of public moneys at Aberdeen, S. D.; Charles A. Willard, Minnesota, associate justice of the supreme court of the Philippine islands.

NIEDRINGHAUS IS CHOSEN.

Will Succeed Francis M. Cockrell as
Senator From Missouri.

Jefferson City, Mo., Jan. 18.—Thomas Kay Niedringhaus of St. Louis Tuesday received a majority of the total vote cast in both houses of the Missouri legislature for United States senator to succeed Francis M. Cockrell. He received a majority of eight on joint ballot.

The voting, in both houses, resulted as follows:
House—Niedringhaus, 79; Cockrell, 58; Kerens, 1; Bittinger, 1.
Senate—Niedringhaus, 11; Cockrell, 22. Total—Niedringhaus, 90; Cockrell, 80; Kerens, 1; Bittinger, 1.

Under the law, Tuesday's voting does not finally elect a senator. The official balloting will be done Wednesday when both branches of the general assembly will meet in joint session.

With the exception of the two votes for Kerens and Bittinger, the Republicans had all their forces in line for Niedringhaus, the caucus nominee, despite the rumors that seven of the members of the house would bolt. Representative Grace, who introduced the resolution that resulted in the appointment of a committee to investigate the campaign contributions of Thomas K. Niedringhaus, and who was accounted an adherent of R. C. Kerens, seconded the speech nominating Niedringhaus. He announced also that he spoke in behalf of Mr. Kerens and his adherents.

The committee appointed to investigate the campaign contributions of Mr. Niedringhaus have reported they found nothing dishonest in his actions.

Bulkeley to Succeed Hawley.

Hartford, Conn., Jan. 18.—For United States senator to succeed Joseph R. Hawley, former Governor Morgan G. Bulkeley, Rep. of this city, Tuesday received a majority of the votes cast in each branch of the legislature.

NORWEGIANS PERISH

**FIFTY-NINE OF THEM LOSE THEIR
LIVES IN AN AVALANCHE**

AT NAESDAL.

Christiania, Norway, Jan. 18.—Fifty-nine persons perished as the result of an avalanche of rocks at Naesdal, north of Bergen, Sunday.

A mass of rocks was suddenly precipitated into Loenvand lake from the surrounding hills, causing an immense wave twenty feet high, which swept the neighboring shores. Houses, people and cattle were swept away by the rush of water and it is known that fifty-nine persons perished.

Thus far only four bodies have been recovered. A great storm stopped the relief work, as the surrounding district is unable to send help.

ALL VOTED FOR M'CUMBER.

Democrats and Republicans Alike Cast
Ballots for North Dakotan.

Bismarck, N. D., Jan. 18.—Senator P. J. McCumber of North Dakota was Tuesday re-elected by the unanimous vote of the state legislature. Every member, Democrats and Republicans alike, voted for senator McCumber, something almost unprecedented in political annals. Senator Cashel, Dem., of Walsh county, started the ball rolling when he eulogized Senator McCumber in a few brief and fitting remarks and cast his ballot for McCumber. Senator Plain, Dem., followed and every vote cast in the senate and house was for the re-election of McCumber.

CHAUNCEY DEPEW ELECTED.

Will Succeed Himself as Senator From
New York.

Albany, N. Y., Jan. 18.—Both branches of the general assembly balloted separately Tuesday for United States senator. In the senate Senator Chauncey M. Depew received 36 votes, Smith M. Weed, Dem., 13. The assembly vote: Depew, 100; Weed, 44. Senator Depew's election will be confirmed in joint session Wednesday.

SENATOR FROM PENNSYLVANIA.

Philander C. Knox Elected to Succeed
the Late M. S. Quay.

Harrisburg, Pa., Jan. 18.—Philander C. Knox was Tuesday elected United States senator for the short and long term to succeed the late Senator M. S. Quay by the Pennsylvania legislature. The house and senate voted separately and will meet in joint convention Wednesday to canvass the vote.

Aldrich Named for Fifth Term.

Providence, R. I., Jan. 18.—United States Senator Nelson W. Aldrich was nominated by both houses of the general assembly for a fifth term Tuesday by the Republicans. The formal election occurs Wednesday.

FIRE NOW UNDER CONTROL.

Stubborn Blaze Finally Conquered by
Chicago Firemen.

Chicago, Jan. 18.—After forty-eight hours of continuous fighting, the fire in the storage warehouse of Schwarzhild & Sulzberger at the Union Stock yards was placed under control shortly before midnight Tuesday night. The fire for the greater part of the time was smouldering between the walls, and it was exceedingly difficult for the firemen to reach it because of the dense clouds of smoke, and the fumes of ammonia that filled the building. Several men were carried out unconscious, but all of them will recover. The loss is placed at \$600,000.

TO SUCCEED HIMSELF

**SENATOR MOSES E. CLAPP IS RE-
ELECTED BY THE MINNESO-
TA LEGISLATURE.**

**ONE REPUBLICAN IN THE HOUSE
REFUSES TO VOTE FOR THE
CAUCUS NOMINEE.**

St. Paul, Jan. 18.—Moses E. Clapp was Tuesday chosen to succeed himself in the United States senate. He received 54 votes in the senate and 111 in the house, or five more than the party strength. Three Democratic senators, Collier, Du Toit and Witherstine, and four representatives, O'Laughlin, Meyer, Lynch and Ramsland cast their votes for Clapp. One Republican, Senator Somerville, was absent, and one representative, A. K. Ware of Northfield, caused the only sensation of the day by bolting Clapp and casting his vote for Frank Clague.

Ware made a frank statement of his reasons. He charged that because he refused to commit himself to Clapp the senator's friends had tried to beat him with a Democrat. He was also against Clapp on general principles, because of his record and attitude on public questions.

Mayor Robert A. Smith of St. Paul was the candidate of the Democrats. The vote was as follows:

Senate—Clapp, 54; Smith, 6; absent, 3.

House—Clapp, 111; Smith, 6; Clague, 1; absent, 1. Total—Clapp, 165; Smith, 12; Clague, 1.

Wednesday noon both houses will meet in joint session in the house chamber, Speaker Clague presiding. The journals of Tuesday will be read, showing a majority for Clapp in each house. The speaker then will make formal announcement of Clapp's election.

Bills Introduced in the House.

M. D. Flower introduced a bill extending the operation of the criminal laws to members-elect, charged or convicted of receiving or soliciting a bribe. The trading of votes during a session is also brought under its provisions. For conviction, a fine of not less than \$1,000 or ten years in state's prison is provided.

Another "wide-open" tax bill was introduced in the house Tuesday. W. D. Washburn, Minneapolis, is the author, and he proposes a drastic overhauling of the present laws.

Mr. Washburn proposes the removal of all constitutional restrictions and the placing of the taxing power directly in the hands of the legislature.

Avin Rowe, a new member from Ramsey, introduced a bill removing market gardeners and peddlers of produce from the restrictions of the license laws. Mr. Rowe would give all persons the right to sell and peddle their own products, raised on their own land, without the payment of the license now demanded by most of the cities.

The house concurred in the senate resolution calling for a joint committee to draft a bill authorizing the purchase of 1,500 additional copies of the revised statutes.

William Wichman of Morton had passed a motion to add two additional members, one from each body, to the committee named to investigate unjust discrimination in transportation rates.

Among the house bills were:

H. F. No. 25—Smith—Proposing a constitutional convention to revise the Minnesota constitution.

H. F. No. 26—Smith—Placing senators and representatives on a straight salary of \$500 a year.

H. F. No. 29—Zelch—Appropriating \$28,000 to be distributed equally among the several agricultural societies and fair associations of the state, to be used by them for premium purposes.

SCHALLER AND HORTON CLASH.

Engage in Wordy Tilt Over Capitol
Commission Bill.

Senators Schaller and Horton had a wordy tilt over the capitol commission bill, which passed the senate Monday evening. Senator Schaller moved that the bill be recalled for the purpose of amendment. The motion was lost 39 to 13.

Senator Thompson introduced a resolution that a committee of three from the senate and four from the house be appointed to purchase 1,000 additional copies of the revised code. Senator Rieke amended by making the number 1,500 and the amendment prevailed. Messrs. Thompson, Alley and Fitzpatrick were named as the committee.

Senator Laugen had passed a resolution calling upon the code commission to furnish a statement to the senate of all moneys expended in the preparation of this work. It was brought out that \$85,000 had been appropriated and the auditor's statement showed but \$39,000 expended.

Mr. Laybourn introduced a bill for the prosecution of criminal cases upon the information of the county attorney, and is identical with the law on the subject in Wisconsin and Michigan.

Among the senate bills are:
S. F. No. 26—Stevens—Providing that all Grand Army posts be exempt from taxation save for local improvements.

S. F. No. 29—Laybourn—to abolish the present grand jury system.

THE DISSATISFIED ONES.

Lives Spoiled by a Fruitless Longing
For Other Fields.

Everywhere we find people who are dissatisfied with their lot, who think they would be happy if they could only get somewhere else, into some other occupation. They see only the thorns in their own vocations, the roses in those of others. The shopgirl would be an actress; the cook would change places with her mistress, the butler with his master. The lawyer would be a doctor, the doctor a lawyer. The farmer bemoans his hard lot and longs to exchange his life of drudgery for the career of the merchant or the manufacturer. The country boy leans on his plow handle and looks toward the city with hungry eyes. If he could only be free from the slavery of the farm, he thinks, wear good clothes, get hold of a yardstick and stand behind a counter! Happiness, opportunity, fortune—everything, lies yonder; around him misery, toil, poverty—nothing desirable. A city youth behind a counter or sitting on a high office stool rails at fate for confining him to the limits of brick walls and the dreary details of merchandise, buying and selling, or of figuring up accounts. Oh, if he could only go to sea and travel to distant countries, become a captain in the navy or skipper or owner of a merchant vessel! Life would be worth something then. But now—

How much energy has been lost, how many lives have been spoiled by this fruitless longing for other fields, other opportunities out of reach. What is the use of sighing or dreaming of what you would do if you were in somebody else's place? What is the use of trying to reach into your neighbor's pasture when you do not know what bitterness may lie at the root of it, hidden from your sight, when you have never tried to develop or to call out the sweetness and juiciness which thrive in your own?—O. S. Marden in Success.

SALT LAKE WATER.

**Effect of Its Wonderful Buoyancy on
Bodies and Boats.**

The buoyancy of the water of the Great Salt lake is such that it is almost impossible for a person to remain upright in it, his body being lifted as a strip of wood thrown into the water at a vertical or oblique direction like a dart is returned to the surface in a horizontal position. In fact, it is believed that the Great Salt lake will support more weight to a given volume of water than even the Dead sea. It is a very popular resort with bathers for the reason that it is impossible for a person to drown unless he should deliberately place his head under the surface or tie a weight to his feet. The bather can float upon the water, lying on his back or chest, and keep his head entirely above the surface with no effort of the arms or legs. The large quantity of salt in solution is the principal reason for the buoyancy. While the buoyancy of the water is so great that it will support a person without aid, the boats which are designed to be used upon the lake must be constructed especially to counteract this feature. The ordinary wooden vessel when empty is actually too light to be navigated with safety upon it, since such a small portion of it would be immersed. Therefore care has to be taken, in building sailboats especially, lest they be too heavy. For this reason navigation is very dangerous on the lake when the wind is blowing even moderately unless the vessel is loaded so that it sits deep enough in the water to counteract the buoyant tendency. The quantity of salt held in solution is so great that it is dangerous for one to swallow even a mouthful of the water, as it is liable to cause strangulation. Several deaths from this cause have ensued among persons who have ventured into the lake.—Chambers' Journal.

Very Old Trees.

An old yew tree stands in the churchyard at Fortingal, in Perthshire, which De Candolle nearly a century ago proved to the satisfaction of botanists to be twenty-five centuries old, and another is still standing at Hedor, in Bucias, which is 3,240 years old. How De Candolle arrived at an apparently correct estimate of the enormous age of these living trees is a simple thing, and the principle is doubtless well known today to all. The yew, like most other trees, adds one line, about the tenth of an inch, to its circumference each year. But the oldest living thing in the world today as far as known is a cypress tree in Chapultepec, Mexico, that is 6,260 years old.

Fame.

Schumann, the famous musician, is the principal character of an amusing story told by a Vienna critic: "The composer once accompanied his wife, who was even then a celebrated pianist, to the palace when she went to play before the king of Holland and was gratified by the monarch's compliments of her performance. The composer was somewhat surprised, however, when the king turned to him and contemptuously inquired, 'Are you also musical?'"

Dared.

"Tell me what you eat and I will tell you what you are."
"Well, I s'pose I eat more wiener-wurst than anything else. Now, con-found you, go on with your theory if you've got the nerve."—Chicago Record-Herald.

BURIED IN THE RUINS

HUNDREDS OF RUSSIANS ARE
CRUSHED IN THE DEBRIS OF
THEIR HOMES.

EARTHQUAKE WRECKS TOWN

ENTIRE LOWER PORTION OF SHE-
MAKHA IS LAID IN RUINS
BY THE SHOCK.

London, Jan. 18.—A dispatch from St. Petersburg to a news agency reports that an earthquake at Shemakha, seventy-six miles northwest of Baku, buried hundreds of people in the ruins of buildings in the lower part of town, which was densely populated despite the decision after the earthquake of three years ago that no more houses should be built there.

ARGUMENTS BY ATTORNEYS.

New Ulm Murder Trial Rapidly Nearing the End.
New Ulm, Minn., Jan. 18.—The state closed its case against Dr. George R. Koch, accused of the murder of Dr. L. A. Gebhardt, at 9:20 a. m. and the defense closed five minutes later. At 9:40 former Attorney General Childs began the argument for the state.

The testimony of Asa P. Brooks to the effect that Dr. Koch was not the man he saw in the act of killing Dr. Gebhardt stands unimpeached. It was the intention of the state to call W. C. Murfin, an intimate friend of Brooks, to the stand in an effort to impeach Brooks' testimony on the theory that Brooks would have told him the real facts if he told any one. The effort of the state failed because it was found that no foundation for the impeachment had been laid.

Mr. Childs concluded his argument for the state shortly after noon and was followed by Attorney Somerville for the defense.
Judge Weber will deliver his charge and the case will go to the jury Wednesday. The outlook is for acquittal.

HOLDS A CLOSED SESSION.

North Sea Commission Meets in the French Capital.

Paris, Jan. 18.—The international commission appointed to inquire into the North sea incident held a closed session Tuesday at the foreign office and received statements of particulars from both sides, which will be made public at the session of the commission on Thursday next.

Notwithstanding reports that the formal submission of the cases might lead to a modification of the Russian defense concerning the presence of Japanese torpedo boats in the North sea at the time the Russian squadron fired on the Hull fishing fleet off Dogger bank, it is learned that the Russian case submitted Tuesday has not been altered in that particular.

The British case follows the general lines heretofore disclosed and also includes documentary evidence so voluminous that it required three men to carry it. The Hull fishermen witnesses are expected to be summoned next week.

TO DISCREDIT TESTIMONY.

Senator Smoot's Attorneys Put Witnesses on the Stand.

Washington, Jan. 18.—Attorneys for Senator Smoot Tuesday put upon the stand witnesses to discredit the testimony of the three witnesses for the protestants who gave what they alleged to be the oaths taken by Mormons who go through the temples and take the endowment ceremony of the Mormon church. The session was shorter than usual Tuesday because of the absence of witnesses. It is expected several witnesses will arrive so that the hearing will go on Wednesday.

FATAL DYNAMITE EXPLOSION.

Two Men Killed and Four Others Severely Injured.

Bedford, Ind., Jan. 18.—By the explosion of dynamite one mile east of Bedford Tuesday evening two men were killed and four others were severely injured.

The dead are William Jenkins and William Garrett.

The men, who were employees of the Central Union Telephone company, had been working on the line which is being run east of the city. They had quit work and were returning to town in a two horse wagon into which the dynamite had been thrown. The jarring of the wagon, it is presumed, caused the explosion.

Sculptor Commits Suicide.

New York, Jan. 18.—Henry G. Schelling, fifty-five years of age, a noted sculptor and designer of architectural decorations, committed suicide Tuesday by cutting his throat with a modelling knife. Mental aberration due to excessive pain from an operation prompted the act.

Confirmed by the Senate.

Washington, Jan. 18.—The senate Tuesday in executive session confirmed the following nominations, John E. Adams, receiver of public moneys at Aberdeen, S. D.; Charles A. Wilard, Minnesota, associate justice of the supreme court of the Philippine islands.

NIEDRINGHAUS IS CHOSEN.

Will Succeed Francis M. Cockrell as
Senator From Missouri.

Jefferson City, Mo., Jan. 18.—Thomas Kay Niedringhaus of St. Louis Tuesday received a majority of the total vote cast in both houses of the Missouri legislature for United States senator to succeed Francis M. Cockrell. He received a majority of eight on joint ballot.

The voting, in both houses, resulted as follows:
House—Niedringhaus, 79; Cockrell, 58; Kerens, 1; Bittinger, 1.
Senate—Niedringhaus, 11; Cockrell, 22. Total—Niedringhaus, 90; Cockrell, 80; Kerens, 1; Bittinger, 1.
Under the law, Tuesday's voting does not finally elect a senator. The official balloting will be done Wednesday when both branches of the general assembly will meet in joint session.

With the exception of the two votes for Kerens and Bittinger, the Republicans had all their forces in line for Niedringhaus, the caucus nominee, despite the rumors that seven of the members of the house would bolt. Representative Grace, who introduced the resolution that resulted in the appointment of a committee to investigate the campaign contributions of Thomas K. Niedringhaus, and who was accounted an adherent of R. C. Kerens, seconded the speech nominating Niedringhaus. He announced also that he spoke in behalf of Mr. Kerens and his adherents.

The committees appointed to investigate the campaign contributions of Mr. Niedringhaus have reported they found nothing dishonest in his actions.

Bulkeley to Succeed Hawley.
Hartford, Conn., Jan. 18.—For United States senator to succeed Joseph R. Hawley, former Governor Morgan G. Bulkeley, Rep. of this city, Tuesday received a majority of the votes cast in each branch of the legislature.

NORWEGIANS PERISH

FIFTY-NINE OF THEM LOSE THEIR
LIVES IN AN AVALANCHE
AT NAESDAL.

Christiania, Norway, Jan. 18.—Fifty-nine persons perished as the result of an avalanche of rocks at Naesdal, north of Bergen, Sunday.

A mass of rocks was suddenly precipitated into Loenvand lake from the surrounding hills, causing an immense wave twenty feet high, which swept the neighboring shores. Houses, people and cattle were swept away by the rush of water and it is known that fifty-nine persons perished.

Thus far only four bodies have been recovered. A great storm stopped the relief work, as the surrounding district is unable to send help.

ALL VOTED FOR M'CUMBER.

Democrats and Republicans Alike Cast Ballots for North Dakotan.

Bismarck, N. D., Jan. 18.—Senator P. J. McCumber of North Dakota was Tuesday re-elected by the unanimous vote of the state legislature. Every member, Democrats and Republicans alike, voted for senator McCumber, something almost unprecedented in political annals. Senator Cashel, Dem., of Walsh county, started the ball rolling when he eulogized Senator McCumber in a few brief and fitting remarks and cast his ballot for McCumber. Senator Plain, Dem., followed and every vote cast in the senate and house was for the re-election of McCumber.

CHAUNCEY DEPEW ELECTED.

Will Succeed Himself as Senator From New York.

Albany, N. Y., Jan. 18.—Both branches of the general assembly balloted separately Tuesday for United States senator. In the senate Senator Chauncey M. Depew received 36 votes, Smith M. Weed, Dem., 13. The assembly vote: Depew, 100; Weed, 44. Senator Depew's election will be confirmed in joint session Wednesday.

SENATOR FROM PENNSYLVANIA.

Philander C. Knox Elected to Succeed the Late M. S. Quay.

Harrisburg, Pa., Jan. 18.—Philander C. Knox was Tuesday elected United States senator for the short and long term to succeed the late Senator M. S. Quay by the Pennsylvania legislature. The house and senate voted separately and will meet in joint convention Wednesday to canvass the vote.

Aldrich Named for Fifth Term.

Providence, R. I., Jan. 18.—United States Senator Nelson W. Aldrich was nominated by both houses of the general assembly for a fifth term Tuesday by the Republicans. The formal election occurs Wednesday.

FIRE NOW UNDER CONTROL.

Stubborn Blaze Finally Conquered by Chicago Firemen.

Chicago, Jan. 18.—After forty-eight hours of continuous fighting, the fire in the storage warehouse of Schwarzchild & Sulzberger at the Union Stock yards was placed under control shortly before midnight Tuesday night. The fire for the greater part of the time was smoldering between the walls, and it was exceedingly difficult for the firemen to reach it because of the dense clouds of smoke, and the fumes of ammonia that filled the building. Several men were carried out unconscious, but all of them will recover. The loss is placed at \$600,000.

TO SUCCEED HIMSELF

SENATOR MOSES E. CLAPP IS RE-
ELECTED BY THE MINNESO-
TA LEGISLATURE.

ONE REPUBLICAN IN THE HOUSE
REFUSES TO VOTE FOR THE
CAUCUS NOMINEE.

St. Paul, Jan. 18.—Moses E. Clapp was Tuesday chosen to succeed himself in the United States senate. He received 54 votes in the senate and 111 in the house, or five more than the party strength. Three Democratic senators, Collier, Du Toit and Witherstine, and four representatives, O'Laughlin, Meyer, Lynch and Ramsland cast their votes for Clapp. One Republican, Senator Somerville, was absent, and one, Representative A. K. Ware of Northfield, caused the only sensation of the day by bolting Clapp and casting his vote for Frank Clague.

Ware made a frank statement of his reasons. He charged that because he refused to commit himself to Clapp the senator's friends had tried to beat him with a Democrat. He was also against Clapp on general principles, because of his record and attitude on public questions.

Mayor Robert A. Smith of St. Paul was the candidate of the Democrats. The vote was as follows:

Senate—Clapp, 54; Smith, 6; absent, 3.
House—Clapp, 111; Smith, 6; Clague, 1; absent, 1. Total—Clapp, 165; Smith, 12; Clague, 1.

Wednesday noon both houses will meet in joint session in the house chamber, Speaker Clague presiding. The journals of Tuesday will be read, showing a majority for Clapp in each house. The speaker then will make formal announcement of Clapp's election.

Bills Introduced in the House.

M. D. Flower introduced a bill extending the operation of the criminal laws to members-elect, charged or convicted of receiving or soliciting a bribe. The trading of votes during a session is also brought under its provisions. For conviction, a fine of not less than \$1,000 or ten years in state's prison is provided.

Another "wide-open" tax bill was introduced in the house Tuesday. W. D. Washburn, Minneapolis, is the author, and he proposes a drastic overhauling of the present laws.

Mr. Washburn proposes the removal of all constitutional restrictions and the placing of the taxing power directly in the hands of the legislature.
Avin Rowe, a new member from Ramsey, introduced a bill removing market gardeners and peddlers of produce from the restrictions of the license laws. Mr. Rowe would give all persons the right to sell and peddle their own products, raised on their own land, without the payment of the license now demanded by most of the cities.

The house concurred in the senate resolution calling for a joint committee to draft a bill authorizing the purchase of 1,500 additional copies of the revised statutes.

William Wichman of Morton had passed a motion to add two additional members, one from each body, to the committee named to investigate unjust discrimination in transportation rates.

Among the house bills were:
H. F. No. 25—Smith—Proposing a constitutional convention to revise the Minnesota constitution.

H. F. No. 26—Smith—Placing senators and representatives on a straight salary of \$500 a year.

H. F. No. 29—Zelch—Appropriating \$28,000 to be distributed equally among the several agricultural societies and fair associations of the state, to be used by them for premium purposes.

SCHALLER AND HORTON CLASH.

Engage in Wordy Tilt Over Capitol Commission Bill.

Senators Schaller and Horton had a wordy tilt over the capitol commission bill, which passed the senate Monday evening. Senator Schaller moved that the bill be recalled for the purpose of amendment. The motion was lost 39 to 13.

Senator Thompson introduced a resolution that a committee of three from the senate and four from the house be appointed to purchase 1,000 additional copies of the revised code. Senator Rieke amended by making the number 1,500 and the amendment prevailed. Messrs. Thompson, Alley and Fitzpatrick were named as the committee.

Senator Laugen had passed a resolution calling upon the code commission to furnish a statement to the senate of all moneys expended in the preparation of this work. It was brought out that \$85,000 had been appropriated and the auditor's statement showed but \$39,000 expended.

Mr. Laybourn introduced a bill for the prosecution of criminal cases upon the information of the county attorney, and is identical with the law on the subject in Wisconsin and Michigan.

Among the senate bills are:

S. F. No. 26—Stevens—Providing that all Grand Army posts be exempt from taxation save for local improvements.

S. F. No. 29—Laybourn—to abolish the present grand jury system.

THE DISSATISFIED ONES.

Lives Spoiled by a Fruitless Longing For Other Fields.

Everywhere we find people who are dissatisfied with their lot, who think they would be happy if they could only get somewhere else, into some other occupation. They see only the thorns in their own vocations, the roses in those of others. The shopgirl would be an actress; the cook would change places with her mistress, the butler with his master. The lawyer would be a doctor, the doctor a lawyer. The farmer bemoans his hard lot and longs to exchange his life of drudgery for the career of the merchant or the manufacturer. The country boy leans on his plow handle and looks toward the city with hungry eyes. If he could only be free from the slavery of the farm, he thinks, wear good clothes, get hold of a yardstick and stand behind a counter! Happiness, opportunity, fortune—everything, lies yonder; around him misery, toil, poverty—nothing desirable. A city youth behind a counter or sitting on a high office stool rails at fate for confining him to the limits of brick walls and the dreary details of merchandise, buying and selling, or of figuring up accounts. Oh, if he could only go to sea and travel to distant countries, become a captain in the navy or skipper or owner of a merchant vessel! Life would be worth something then. But now—

How much energy has been lost, how many lives have been spoiled by this fruitless longing for other fields, other opportunities out of reach. What is the use of sighing or dreaming of what you would do if you were in somebody else's place? What is the use of trying to reach into your neighbor's pasture when you do not know what bitterness may lie at the root of it, hidden from your sight, when you have never tried to develop or to call out the sweetness and juiciness which thrive in your own?—O. S. Marden in Success.

SALT LAKE WATER.

Effect of Its Wonderful Buoyancy on Bodies and Boats.

The buoyancy of the water of the Great Salt lake is such that it is almost impossible for a person to remain upright in it, his body being lifted as a strip of wood thrown into the water at a vertical or oblique direction like a dart is returned to the surface in a horizontal position. In fact, it is believed that the Great Salt lake will support more weight to a given volume of water than even the Dead sea. It is a very popular resort with bathers for the reason that it is impossible for a person to drown unless he should deliberately place his head under the surface or tie a weight to his feet. The bather can float upon the water, lying on his back or chest, and keep his head entirely above the surface with no effort of the arms or legs. The large quantity of salt in solution is the principal reason for the buoyancy. While the buoyancy of the water is so great that it will support a person without aid, the boats which are designed to be used upon the lake must be constructed especially to counteract this feature. The ordinary wooden vessel when empty is actually too light to be navigated with safety upon it, since such a small portion of it would be immersed. Therefore care has to be taken, in building sailboats especially, lest they be top heavy. For this reason navigation is very dangerous on the lake when the wind is blowing even moderately unless the vessel is loaded so that it sits deep enough in the water to counteract the buoyant tendency. The quantity of salt held in solution is so great that it is dangerous for one to swallow even a mouthful of the water, as it is liable to cause strangulation. Several deaths from this cause have ensued among persons who have ventured into the lake.—Chambers' Journal.

Very Old Trees.

An old yew tree stands in the churchyard at Fortingal, in Perthshire, which De Candolle nearly a century ago proved to the satisfaction of botanists to be twenty-five centuries old, and another is still standing at Hedsor, in Bucks, which is 3,240 years old. How De Candolle arrived at an apparently correct estimate of the enormous age of these living trees is a simple thing, and the principle is doubtless well known today to all. The yew, like most other trees, adds one line, about the tenth of an inch, to its circumference each year. But the oldest living thing in the world today as far as known is a cypress tree in Chapultepec, Mexico, that is 6,260 years old.

Fame.

Schumann, the famous musician, is the principal character of an amusing story told by a Vienna critic: "The composer once accompanied his wife, who was even then a celebrated pianist, to the palace when she went to play before the king of Holland and was gratified by the monarch's compliments of her performance. The composer was somewhat surprised, however, when the king turned to him and courteously inquired, 'Are you also musical?'"

Dared.

"Tell me what you eat and I will tell you what you are."
"Well, I s'pose I eat more wieners—wurst than anything else. Now, confound you, go on with your theory if you've got the nerve."—Chicago Record-Herald.

At the Cotillon.

Elderly Lady (watching the dancers)—How well Mr. Heavyweight dances! He is so light on his feet. Young Lady (who has had experience)—Humph! I wish he were the same on other people's.—Smart Set.
